Summary

Chigozie Ozo Ofodile – Fullstack Software Engineer

I am a dedicated and skilled fullstack software engineer specializing in JavaScript and proficient in various other programming languages. I have extensive experience in both front-end and back-end development, creating dynamic and efficient applications.

On the front end, I utilize JavaScript along with modern frameworks to build responsive and interactive user interfaces. On the back end, I employ Express to develop RESTful APIs and efficient microservices, ensuring secure and robust data-driven applications. I have mastered multiple JavaScript frameworks and am adaptable to using any required technologies.

My technical expertise is complemented by a Bachelor's degree in Computer Applications, where I graduated in the top 4 of my class from Bharathiar University.

My strong work ethic, resilience, and relentless drive to succeed make me a valuable asset to any team. I am committed to delivering high-quality solutions and continuously enhancing my skills to stay at the forefront of technology.

Experience

Pyrich Group Limited

nov 2022-present

Full Stack Engineer

Abuja

🔗 <https://pyrichgrouplimited.com>

Experienced Full Stack MERN Developer with a strong background in building and maintaining scalable web applications. Proficient in the complete MERN (MongoDB, Express.js, React, Node.js) stack, with hands-on experience in both frontend and backend development. Adept at designing RESTful APIs, managing databases, and implementing responsive user interfaces. Skilled in problem-solving and optimizing applications for maximum performance. Strong knowledge of modern web development practices, including version control with Git, deployment, and continuous integration/continuous deployment (CI/CD) pipelines. Excellent communication and teamwork skills, with a focus on delivering high-quality, maintainable code in collaborative environments.

Education

Bharathiar University

September 2015 - September 2019

Computer Applications

Bachelor Degree

4.0
